

# How can ONE native plant make a difference?

Join Trevor Smith, Regenerative landscape designer and educator, for an exclusive talk about how pollinator gardens are so much more than just about butterflies.

Zoom link for this will be:

<https://us06web.zoom.us/j/85974543385?pwd=NitPeFplTnZEWGJhS0dDa3k4bWF6Zz09>

Meeting ID: 859 7454 3385

Passcode: 846686

Beyond providing sustenance for our six-legged friends, Trevor will also describe how your garden can play a substantial role in rebuilding the local ecosystem and helping create climate resilience. Start planning your spring garden with pollinators in mind.

- Types of pollinators
- Types of pollinator gardens
- What all pollinators need
- Importance of healthy soil
- The role our gardens play in reversing climate change
- The role of native plants in our gardens

**One plant can save our NATIVE bumble bees!**
